

Olasubomi Lawal

WORK EXPERIENCE

CIS-TechHub Lab Administrator

Towson University – Towson, MD

08/2023 – Present

- Provide troubleshooting assistance to faculty in labs and classrooms through our phone system
- Provide technical assistance to students, faculty, and staff in-person, over the phone, and through our Discord server
- Provide services including software installations, network service access requests and PC display

IT Intern

Lavner Education – Gwynedd, PA

06/2023 – 08/2023

- Teaching students technical skills, including how to code using Java in Visual Studio Code
- Assist with the setup and maintenance of on-site computer hardware, software, inventory management, and internet connectivity to ensure all programs and devices run effectively
- Provide ongoing troubleshooting and technical support to staff and students
- Assist with debugging code, project backup, and computer clean-up

PROJECTS

Game Jam: Robotnrist

02/2023-05/2023

- Developer for a 2D, top-down view game, in Godot, in which a player controls a robot that has a handful of objectives to complete to protect his garden and can be found at <https://tugdc.itch.io/robotnrist>

Edgewood Athletics Database

02/2023-05/2023

- A database project to help keep track of people and sports that are involved in Edgewood Athletics
- Developed using MySQL and Java Swing for the GUI and implementation of the database
- Allows for insertion, updating, searching, and deletion of entities within the database

YouRadio

02/2023-05/2023

- Created a prototype radio web app which pulls indie music from a database and randomizes songs
- Used HTML for the front end and Python Django for the backend
- Implemented a full software development lifecycle and utilized Agile development methodologies, including sprints, in development

Ethereal Nexus

10/2021-12/2021

- Created a prompt-response adventure game using Java in which the main character, Vyn Wilkes, is on a journey to find the Nexus Sphere on the planet, Ethereal Nexus
- This game uses object-oriented programming to connect the player to other entities like his bag and the individuals in the world.
